Bhopal, Madhya Pradesh, India

Professional Summary

Entry-level Data Analyst with hands-on experience in SQL, Python, Pandas, Excel, and Power BI. Skilled in data cleaning, exploratory data analysis, KPI reporting, dashboard development, and extracting actionable insights from structured datasets. Experienced in analyzing sales performance, e-commerce inventory, and customer churn through practical projects using PostgreSQL, Python, and Power BI. Seeking to contribute analytical and problem-solving skills to a data-driven organization.

Education

- **Sagar Institute of Research & Technology, RGPV** — Bhopal
  Bachelor of Technology (B.Tech.) in Electronics and Communication Engineering — *2021 – 2025*
- **Campion School** — Bhopal
  XII – PCM — *2020 – 2021*
- **Campion School** — Bhopal
  X – PCM — *2018 – 2019*

Technical Skills

- **Data Analysis**: Python, Pandas, NumPy, Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), Data Validation, Statistical Analysis
- **SQL & Databases**: SQL, PostgreSQL, MySQL, SQLite, Joins, CTEs, Subqueries, Window Functions, Aggregations, GROUP BY, HAVING, CASE Statements
- **Business Intelligence & Visualization**: Power BI, Dashboard Development, KPI Reporting, Data Visualization, Matplotlib, Seaborn
- **Microsoft Excel**: PivotTables, XLOOKUP, VLOOKUP, SUMIFS, COUNTIFS, IF, IFERROR, Charts, Data Cleaning
- **ETL & Data Management**: ETL Concepts, Data Integration, Data Mapping, Data Quality, Data Warehousing Concepts, Source-to-Target Mapping
- **Tools**: Git, GitHub, Jupyter Notebook
- **Business & Soft Skills**: Analytical Thinking, Problem-Solving, Stakeholder Communication, Requirements Analysis, Reporting, Time Management

Projects

- **Sales Analytics Dashboard — Power BI, Excel** [GitHub]
  - Developed an interactive Power BI dashboard to analyze sales performance across countries, product categories, sales channels, and time periods.
  - Created KPI visualizations to track Total Revenue (645.22K), Gross Profit (296.38K), and Gross Margin (45.94
  - Analyzed monthly revenue trends, identified top- and bottom-performing countries, and compared revenue contributions across four sales channels.
- **Zepto E-Commerce SQL Data Analysis — PostgreSQL, SQL, Data Cleaning** [GitHub]
  - Analyzed **3,732 e-commerce SKU records** using PostgreSQL to evaluate product pricing, discounts, inventory availability, and category-level performance.
  - Designed the database schema, imported and cleaned CSV data, handled encoding issues, removed invalid records, and standardized price values for analysis.
  - Developed SQL queries using **GROUP BY, HAVING, CASE, aggregations, filtering, sorting, and calculated metrics** to identify high-discount products, out-of-stock high-value items, category revenue, price-per-gram, and inventory weight.
- **Customer Churn & Retention Analysis — Python, SQL, Pandas, NumPy, Seaborn, Matplotlib** [GitHub]
  - Analyzed customer churn using SQL and Python by integrating **customer, subscription, and support datasets** to identify behavioral patterns associated with customer attrition.
  - Conducted EDA and statistical analysis using Pandas, NumPy, Matplotlib, and Seaborn to evaluate churn risk, customer tenure, subscription characteristics, monthly charges, and support escalations.
  - Engineered a **churn-risk segmentation** from existing churn scores and analyzed relationships between churn indicators; observed approximately **90.93% correlation between churn risk and churn score** and **73% correlation with support escalations**.

Certifications

- Technosaga 2K22: Secured 2nd Prize in Technical Model Making at the State-Level Tech Fest, SIRT Bhopal. View Certificate
- RAEMPS 2K25: Presented at the National Student Conference hosted by SAGE Group of Institutions. View Certificate
- Modern Web Development Internship: Completed training in HTML, CSS, JavaScript, and front-end development at Sheryians Coding School. View Certificate
